IV. Case No. 15-25 – Review and consider a request for a Re-Plat creating Lot 24R, Block 2, Cedarview Addition being 0.936 acres out of Abstract 138, generally located on the northwest corner of Potter Lane and Karen Drive; *requested by Stan Tidwell on behalf of Woodmont Doors.*

Commissioner Deeds arrived at 6:03.

Mr. Don Gore, Sr. Planner delivered the staff report by stating the applicant is proposing to combine four (4) lots into one (1) 0.936 acre lot, dedicating and abandoning the necessary easements. The property is zoned "I" Industrial and the layout plans are inconsistent with the Streets and Alleys Section as the adjacent streets are unimproved. Mr. Stan Tidwell, owner of Western Cabinets wants to develop the lot for warehouse uses. There is an existing 8" water line and a 6" sewer line on Potter Lane that the lot has access to. Currently, Karen Drive and Topper Drive are unimproved, thus inconsistent with the City's design manual. The City Engineer feels that requiring the applicant to upgrade the existing roadways would be overly burdensome and would not be best engineering practices to construct a road in a piece meal fashion.

Mr. Jay Childs, 5131 Ranch Cedar Road, Midlothian, indicated the applicant is planning on platting four (4) lots into one (1), putting two (2) Muller metal barns on the lot. There will be no HVAC or other utilities at this location. It is for storage only. There will be a 24' fire lane between the barns. There is a caretaker on another piece of property the applicant owns that will take care of the shop and the maintenance on the proposed storage buildings.

Vice-Chairman Strother asked which building the applicant would be serving with this raw material.

Mr. Childs indicated the applicant's current shop across the street on Potter which has a loading dock in the back.

Commissioner Deeds asked: if the material that will be stored in the barns already milled or is it just raw material; after the product is milled will it be stored at this location and would there be any fire extinguishing equipment in the barns.

Mr. Childs indicated the product being stored will be raw material only and after it is milled it will be stored elsewhere. There is no sprinkling system but there is a fire hydrant on the southeast corner of the property.

Commissioner Hamilton asked if there will be any land improvements.

Mr. Childs indicated there will only be the two (2) metal barns themselves, plus parking and some landscaping with a small detention area.

Commissioner Deeds made a motion to recommend approval of Case 15-25. The motion was seconded by Commissioner Thierry. The vote was as follows:

Ayes: 6 – Chairman Brooks, Vice-Chairman Strother, Commissioners, Deeds, Hamilton, Thierry and Saldana.

Nays: 0

Chairman Brooks declared the motion carried unanimously.
