

Make a Presentation Recognizing **South Hills as
2013 City of Cedar Hill
Most Improved Neighborhood Award Recipient**

One of Cedar Hill's earliest planned developments, the South Hills subdivision has over 440 homes including their Little Creek Corner neighbors, just west of South Clark Rd. Affectionately known as the 'Planets' subdivision because of the street names, residents of South Hills are committed to making the community and their neighborhood a great place to live. Residents distinguished themselves in every award category with regular crime watch meetings, increased participation in 2012 National Night Out, an annual neighborhood chili cook off, multiple Yard of the Month awards and by providing a fun, safe night for children in the community with a Halloween Safety Walk. In addition, they provided input on the Red Oak Creek Trail, assisted the Tri-Cities Animal Shelter in addressing a pet-related health issue and most recently by working with code enforcement personnel in Operation Clean Sweep. They have an impressive communication network and continue to contribute to their City-hosted web page.

Under the capable leadership of organization Coordinator Sandy Brown and others, a bright future lies ahead for the South Hills neighborhood.

Congratulations and thanks to South Hills for outstanding contributions to your neighborhood and the community.
