Definition: A Public

Improvement District (PID) is a defined geographic area, i.e. a neighborhood, within which public improvements may be financed through the use of special assessments.

Authority: The Texas Local Government Code (LGC), Chapter 372, authorizes municipal

WHAT IS A PID?

Governing Bodies (Cedar Hill City Council) to approve PIDs in their cities when it finds that the creation of the PID “promotes the interests of the municipality.”

For more information on PIDs visit:
cedarhilltx.com/pid

Regulation: City Council adopted a PID Policy which establishes guidelines for PID operations.

Cedar Crest Newsletter

Why a newsletter?

Cedar Crest PID Board of Directors have created a neighborhood newsletter to help create a well-informed, engaged, and cohesive community by keeping residents connected and involved in local matters. The benefits of a newsletter provides:

Communication: It serves as a platform to communicate important information such as community events and general updates.

Community Building: A newsletter can foster a sense of community by highlighting achievements, resident stories, and promoting initiatives.

Awareness: It keeps residents informed about developments that affect them, such as changes in local policies, upcoming construction projects, or safety alerts.

Involvement: It encourages residents to get involved in neighborhood activities and connect.
