Around the Neighborhood

The Cedar Hill Fire Department participated in the 2025 Polar Plunge. \$1,840 was raised in the signature fundraising campaign for Special Olympics Texas. This was a Public Safety Team effort along with our Brothers and Sisters in Blue. Special thanks to the Cedar Hill Parks Department for hosting the event at the Lagoon and for keeping the water a cool 46 degrees!

Significant Incident

January 22, 2025 – Cardiac Arrest Save by Cedar Hill Fire Department

At 6:30 AM, the Cedar Hill Fire Department was dispatched to a 52-year-old female who was unconscious, unresponsive, and pulseless. Based on the call notes indicating the patient's condition, Medical Operations Technician (MOT) Wasinger quickly upgraded the response and requested Tower 211 to be added for additional support.

Upon arrival, crews from Tower 211 and Medic 211 immediately initiated CPR. The patient was found to be in ventricular fibrillation and was promptly defibrillated. Firefighter Chauncey established intraosseous (IO) access and administered epinephrine, while MOT Wasinger secured the patient's airway through intubation. Firefighters Bullard and Spencer assisted in transport aboard Medic 211, continuing advanced life support measures and administering additional medications en-route to the hospital. After receiving defibrillation and amiodarone, the patient arrived at the hospital with a pulse.

A few days later, Station 211B received the kind of news every firefighter hopes for—the patient had regained consciousness and was well enough to walk out of the hospital. The crew took a moment to reflect on the call, knowing their quick actions made a difference. It was a powerful reminder of why they do this job—because every second counts, and some days, the outcome is truly life-changing.

The Mission of the Cedar Hill Fire Department is to protect lives and property through compassionate and professional emergency responses and community involvement and engagement.
